

FMG Ice Dragon Racing brings the excitement of dragon boating into the winter season with purpose built FMG dragon sleds which hold ten participants each. Ice racing sleds are made of steel and are ready for the rigors of our Canadian Winter, strong, safe and attractive.

FMG Ice Dragon Challenges are a welcome addition to community Winter Festivals bringing needed group and corporate participations. They are a great community fundraiser ! Typically, a FMG Ice Dragon Team raises over \$1,800.00 per event plus registration fees!

The race is a colorful display of ice, steel, light and fire. Most events occur well into the evening leading to a spectacular visual experience. Rules to participate are set up for safety, fun and ease of participation making it easy for local organizers to manage.

FMG Ice Dragon Challenges are extremely affordable events and are fully backed up with the help and guidance of FMG professionals. From marketing, event execution, race management, equipment, results and the event wind up, you are in always good hands with FMG professionals.

To register your FMG Ice Dragon Team and to get your Winter Festival involved with FMG Ice Dragons simply contact us for details by emailing us at the address below.
